

I'm writing regarding the expansion of LPFM broadcast service. I have no objection to the actual expansion, but priority should be given to the current FM stations. Most have been in operation for many years and have loyal followings. It's not fair to them or us as the listening public. I am especially concerned about the public supported stations such as KLOVE, KFLR, KPXQ that serve me and others in my area. These stations provide family friendly programming that parents can feel comfortable having on any time. Let the LPFM stations earn their positions like everyone else.
